

## SANDY NITRILE FULL/DOUBLE COATED TOUCH COMPATIBLE GLOVES

**69-244T**

Sandy nitrile palm coating provides a strong grip in both oil and dry application

Double-Dipped palm and fingertips provide added abrasion resistance

Suitable for controlling and handling sharp pieces

Flexible knit wrist construction conforms to the hand and keeps dirt out of glove

**Recommended For:**

- Construction
- Automotive industry
- Glass handling and machining
- Transportation and warehousing

**Applications:**

- Heavy-duty tasks, particularly with sharp objects
- Transportation and warehousing
- Working and molding sheet metal
