

STAY SAFE. STAY PROTECTED. WORK WITH CONFIDENCE

69-6184

Durable leather palm provides better grip and comfort

Leather and aramid combine for heat resistance when handling hot objects

Aramid fiber and leather palm construction offers excellent puncture and abrasion resistance

High cut resistance with ANSI/ISEA 105 Cut Level A6 protection ensures safety when handling sharp materials

**Recommended For:**

- Mining
- Automotive
- Glass Manufacturing
- Construction
- Industrial

**Applications:**

- Press and welding
- Handling heavy, sharp metal
- Metal fabrication and stamping
- Automotive stamping
- Glass handling
