HEARING PROTECTION
THAT WORKS FOR YOU

hushTM

EARPLUG SELECTION FACTORS:

Shape

Ear canals are as unique as your finger prints. Choose an earplug shape that suits your ear canal the best. Earplugs come in multiple shapes like bullet, bell, flanged or T.

Size

Choose an earplug that sits well in your ear canal. In some cases women & children may need a smaller size.

Ease of use

Ease of insertion and removal is key step in selecting the right earplug.

Colour

Certain colours like the bright **Citron** or **Flouroscent Red** make it easier to detect for contamination and also improve the safety compliance rate.

Variants

Choose the variants that suit your needs the most

- Corder Vs Uncorderd
- PU Foam Vs Thermoplastic Rubber (TPR)
- Disposable Vs Reusable
- Regular Vs Metal Detectable

Off The Job Noise Levels On The Job

Hand Guns	150 db	Passenger Jet Take Off
Earphones At Max Volume	140 db	Grinders

hush™ EARPLUGS LISTING

HUSH 50-13 Earplug Single Use NRR 32

- Bright citron colour for high visibility
- Tapered bullet shape that fits the ear canal easily
- Made from soft PU foam for superior fit and comfort
- Each pair is packed in individual polybags to maintain hygiene levels

Item #	Size	Material	Style	Colour
50-13	One Size	Soft PU (Polyurethane) Foam	Uncorded	Citron
50-13C	One Size	Soft PU (Polyurethane) Foam	Corded	Citron
50-13R			Dispenser refill bag	

NRR 32 | Suitable Noise Range 85-100 db

HUSH 50-14 Earplug Single Use NRR 33

- Bright red colour for high visibility
- Tapered bullet shape that fits the ear canal easily
- Made from soft PU foam for superior fit and comfort
- Highest Noise Reduction Rating for maximum protection
- Each pair is packed in individual polybags to maintain hygiene levels

Item #	Size	Material	Style	Colour
50-14	One Size	Soft PU (Polyurethane) Foam	Uncorded	Fluorescent Red
50-14C	One Size	Soft PU (Polyurethane) Foam	Corded	Fluorescent Red
50-14R			Dispenser refill bag	

NRR 33 | Suitable Noise Range 85-100 db

HUSH 50-15 Earplug Metal Detectable, Single Use NRR 32

- Best in class 3mm metal ball and detectable cord
- Made from superior quality PU foam for user comfort
- Individually packed pairs to improve hygiene standards
- Bright blue colour reduces chance of contamination in food production
- Metal detectable to reduce risk of contamination in food production

Item #	Size	Material	Style	Colour
50-15CD	One Size	Soft PU (Polyurethane) Foam	Corded	Sky Blue

NRR 32 | Suitable Noise Range 85-100 db

HUSH 50-33 Earplug Single Use NRR 32

- Bright citron colour for high visibility
- Bell shaped for ease of insertion and removal
- Made from soft PU foam for superior fit and comfort
- Each pair is packed in individual polybags to maintain hygiene levels

Item #	Size	Material	Style	Colour
50-33C	One Size	Soft PU (Polyurethane) Foam	Corded	Citron

NRR 32 | Suitable Noise Range 85-100 db

HUSH 50-23 Earplug Reusable NRR 25

- Bright citron colour for better visibility
- Made from TPR for long lasting user comfort
- Three flanged shape for easy insertion and removal
- Environment friendly option: Reusable and washable earplugs to reduce waste
- Each pair comes in a plastic carry case for ease of storage and improved hygiene

Item #	Size	Material	Feature	Style	Colour
50-23C	One Size	TPR	3 Flange	Corded	Citron

NRR 25 | Suitable Noise Range 80-95 db

- Made from TPR for long lasting user comfort
- Bright blue colour reduces chance of contamination in food production
- Each pair comes in a plastic carry case for ease of storage and improved hygiene
- Metal detectable plugs and cord to reduce risk of contamination in food production
- Environment friendly option : Reusable and washable earplugs to reduce waste

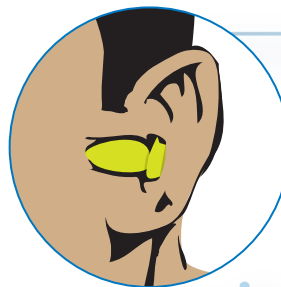

Item #	Size	Material	Feature	Style	Colour
50-25CD	One Size	TPR	3 Flange	Corded	Sky Blue

NRR 25 | Suitable Noise Range 80-95 db

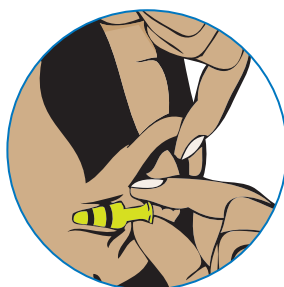

Correct Usage

Disposable Foam Earplugs

Reusable TPR Earplugs

MAINTENANCE

- Before use, always inspect earplugs or ear tips for dirt, damage, or hardness
- If found dirty then clean if possible, else discard & replace immediately
- Disposable earplugs should be discarded after use to maintain hygiene levels
- Reusable earplugs can last 2-4 weeks depending on usage and maintenance
- Wash TPR earplugs with mild soap/water, pat dry or air dry, and store in a case when not in use
