CUT-RESISTANT GLOVES

ANSI/ISEA 105 Cut Level A1

Cut Force: 200–499 gf (LIGHT)

Nuisance cuts such as paper cuts and other minor hazards.

ANSI/ISEA 105 Cut Level A2

Cut Force: 500–999 gf (LIGHT-MEDIUM)

Low cut hazards such as material handling, assembly of small parts with sharp edges, and/or general purpose applications.

ANSI/ISEA 105 Cut Level A3

Cut Force: 1000–1499 gf (LIGHT-MEDIUM)

Light to moderate cut hazards including light glass handling, carpentry and packaging.

ANSI/ISEA 105 Cut Level A4

Cut Force: 1500–2199 gf (MEDIUM)

Medium cut hazards such as light manufacturing, glass handling, and canning applications.

ANSI/ISEA 105 Cut Level A5

Cut Force: 2200–2999 gf (MEDIUM-HIGH)

Medium to heavy cut hazards such as food prep and meat processing.

ANSI/ISEA 105 Cut Level A6

Cut Force: 3000–3999 gf (HIGH Level)

High cut hazards when handling sharp objects in applications such as metal recycling, glass manufacturing, and HVAC.

ANSI/ISEA 105 Cut Level A7

Cut Force: 4000–4999 gf (HIGH+)

High cut hazards such as working with sharp tools and equipment.

ANSI/ISEA 105 Cut Level A8

Cut Force: 5000–5999 gf (HIGH++)

High cut hazards in applications such as woodworking and metal working.

ANSI/ISEA 105 Cut Level A9

Cut Force: ≥ 6000 gf (EXTREME)

Extreme cut hazards with sharp metal parts in applications such as metal fabrication/stamping and automotive.

Disclaimer: This infographic only provides recommendations. Please consult your Health and Safety Manager before selecting a glove for your application.

COLOR-CODED HIGH CUT RESISTANT GLOVES

PRIMACUT Cut Levels A2–A9 with Color Coding

RONCO Cut Resistant Color Coding: To help streamline glove selection and improve safety compliance on worksites, RONCO has introduced a color-coded shell system for its high cut resistant gloves (ANSI/ISEA 105 Cut A2 and above). Each glove shell is visibly color-coded based on its cut resistance level, making it quick and easy for workers and supervisors to identify the right level of protection briefly – without needing to read fine print or remove the gloves.

Cut A2/A3	Cut A4	Cut A5	Cut A6	Cut A7	Cut A8	Cut A9
Silver	Grey	Orange	Blue	Green	Red	Black
						
#69-680E	#69-700	#69-5528	#69-6445	#69-7449	#69-7337	#69-9432

FROM **LOW** TO **EXTREME** CUT RISKS: CHOOSE THE RIGHT GLOVE FOR THE JOB

PRIMACUT™

Choosing the right PPE for your workers may sound Cut & Dry

Safety gloves are one of the most important pieces of PPE to consider as they are used in a variety of situations. Cut-Resistant gloves are specifically made to protect hands and fingers from cuts and lacerations.

For those working around extreme hazards, where abrasion and cut injuries are likely to occur, finding the right glove is highly important.

Workers dread encountering sharp blades, objects, and edges. These type of hazards can easily cause lacerations, slashes and nicks. As a matter of fact, 30% of workplace injuries involve cuts or lacerations and a whopping 70% of them involve hands or fingers! The main cause of these accidents: workers were not wearing the proper safety gloves.

Providing the right kind of cut-resistant glove for workers takes more than simply meeting bare minimum requirements. If you are committed to higher standards of safety for your workers and higher quality of personal protective equipment, we have got you covered.

PRIMACUT™

Best-in-class Cut-Resistant gloves for your hands

Equip your hands with RONCO's highest degree of defense against cuts and lacerations. Knitted with HPPE blend of strong and durable yarns, PrimaCut provides high performance, heavy-duty armor for your hands, without compromising comfort.

RONCO uses the latest fibers and coatings to create a diverse selection of cut and abrasion resistant gloves that provide:

- Reliable grip
- Protection
- Dexterity and comfort

Ideal for not only sharp tools and material handling but also for high abrasive functions such as roofing, landscaping and concrete work.

Right level of cut-resistant gloves

A glove designed for extreme cut hazards will be more expensive, and because it's reinforced for high cut risks, it may not be comfortable if you're only using a box cutter once an hour.

How do I gauge which cut-resistance gloves I need?

Which gloves you purchase will depend on a number of factors:

- Understanding the potential cut risks
- Balancing the need for cut resistance with comfort and flexibility
- Cost and even style can all factor into your decision-making process

If you're not sure which gloves are the best for your employees' needs, talking to your RONCO representatives will be a great way to start

CUT LEVEL A2

PRIMACUT™

69-250

**Nitrile Palm Coated Aramid Gloves,
ANSI/ISEA 105 Cut Level A2**

- Flexibility eases hand fatigue
- Nitrile palm coating offers light chemical resistance
- Good abrasion / cut / tear and puncture resistance in light duty applications

Size	Item#
Small	69-250-07
Medium	69-250-08
Large	69-250-09
X-Large	69-250-10

Packaging: 6 pairs x 8 bags = 48 pairs per case

PRIMACUT™

69-882

**PU Palm Coated Gloves, ANSI/ISEA
105 Cut Level A2**

- Breathable material for maximum comfort
- Machine washable and re-usable for cost-efficiency
- The best combination of precision handling and cut resistance in one glove

Size	Item#
Small	69-882-07
Medium	69-882-08
Large	69-882-09
X-Large	69-882-10
2X-Large	69-882-11

Packaging: 6 pairs x 8 bags = 48 pairs per case

CUT LEVEL A2

PRIMACUT™ Earth

69-680E

**Polyurethane (PU) Palm Coated
HPPE/Recycled PET Gloves, ANSI/ISEA 105
Cut level A2**

- HPPE/Recycled PET liner offers good cut protection and abrasion resistance.
- Knit wrist keeps dirt out and ensures a good fit
- Elasticized knit wrist with color-coded hem for easy size identification

Size	Item#
Small	69-680E-07
Medium	69-680E-08
Large	69-680E-09

Packaging: 6 Pairs x 8 Bags = 48 Pairs Per Case

CUT LEVEL A3

PRIMACUT™

69-380

PU Palm Coated HPPE Gloves, ANSI/ISEA 105 Cut Level A3

- Combination of thin liner and PU coating provides worker with tactile sensitivity and dexterity
- Manufactured with a 13 gauge salt and pepper HPPE fibre shell with a grey polyurethane coating
- Excellent abrasion, cut, tear and puncture resistance in light to medium duty applications

Size	Item#
Small	69-380-07
Medium	69-380-08
Large	69-380-09
X-Large	69-380-10
2X-Large	69-380-11

PRIMACUT™

69-840

Ultra-Thin Foam Nitrile Palm Coated HPPE Gloves, ANSI/ISEA 105 Cut Level A3

- Lint free for clean applications
- Exceptional precision handling and cut protection
- Foam nitrile coating provides excellent dry, wet and oil grip

Size	Item#
X-Small	69-840-06
Small	69-840-07
Medium	69-840-08
Large	69-840-09
X-Large	69-840-10
2X-Large	69-840-11

Packaging: 6 pairs x 8 bags = 48 pairs per case

Packaging: 6 pairs x 8 bags = 48 pairs per case

CUT LEVEL A3

PRIMACUT™

69-3111

HPPE/Polyester/Spandex Gloves with Nitrile-Coated Fingertips and Nitrile-Dotted Palm, ANSI/ISEA 105 Cut Level A3

- Reduces hand fatigue during extended wear, improving worker productivity
- Provides added abrasion resistance, extending glove life span in tough environments
- Tapered fingertip coating provides enhanced precision and flexibility for tasks requiring fine dexterity.

Size	Item#
Small	69-3111-07
Medium	69-3111-08
Large	69-3111-09
X-Large	69-3111-10
2X-Large	69-3111-11

PRIMACUT™

69-3193

Cotton / Aramid String Knit Cut-resistant Gloves, ANSI/ISEA 105 Cut Level A3

- Cotton/Aramid material for heat and cut resistance
- Deliver reliable cut protection without sacrificing mobility or comfort.
- Machine washable & stretches easily

Size	Item#
X-Small	69-3193-06
Small	69-3193-07
Medium	69-3193-08
Large	69-3193-09

PRIMACUT™ CUT-RESISTANT SLEEVES

Extended Protection Where Cuts Don't Stop at the Wrist

Hands aren't the only area at risk. PrimaCut™ cut-resistant sleeves are engineered to provide reliable forearm protection in environments where sharp edges, blades, glass, and metal pose constant hazards. Designed to complement PrimaCut™ gloves, these sleeves help reduce lacerations, improve compliance, and extend protection without sacrificing comfort or mobility.

WHY PRIMACUT™ SLEEVES?

- ANSI/ISEA 105 cut protection for forearm coverage
- Lightweight, breathable constructions for all-day wear
- Secure fit options to reduce slippage during movement
- Ideal for pairing with PrimaCut™ gloves across cut levels

Heat & Cut Resistant Sleeves

Aramid & Composite Yarns

PRIMACUT™

68-203-xx
68-203-xxTH

Double Ply Lightweight Aramid Cut Resistant Sleeves, Yellow, ANSI/ISEA 105 Cut Level A3

- Made from aramid fibre, the sleeves deliver excellent protection from cut, slash, and abrasion hazards in the workplace
- Aramid material is inherently flame-resistant and can withstand heat up to 200 °C (400 °F) without degrading
- Soft and can stretch to fit most arm sizes
- Abrasion, tear, heat and cut resistant
- Free from azo dye component
