

SANDY NITRILE COATED CHEMICAL & CUT RESISTANT GLOVES

92-494

Specialized coating delivers excellent grip and handling performance

Fully coated construction helps create a protective barrier against chemical splashes and liquid penetration

Offers outstanding resistance to wear and abrasion, helping extend glove life and reduce replacement frequency

Combines chemical resistance, contact heat protection, and a flexible knit design

Recommended For:

- Construction
- Automotive
- Industrial Manufacturing
- Mining

Applications:

- Chemical Processing, Maintenance and Repair Operations
- Metal Fabrication
- Parts Handling
